Career Objective

Analytical and results-driven finance professional with a strong foundation in engineering and fintech, combined with hands-on experience in startup operations and financial strategy. Currently pursuing CFA Level I and CAIA-certified, bringing both technical acumen and business foresight to drive financial performance and operational efficiency in a dynamic environment.

Skills

Finance	Bloomberg, FactSet, Microsoft Office Suite, XERO, Morningstar, S&P Capital IQ
FP&A	Budgeting, Forecasting, P&L Control, Cost Analysis
Risk Management	Risk Analysis, Assessment & Compliance, IRRRB, Disaster Recovery (DR), CVA
Business Analyst	Reporting & Documentation, Tableau, PowerBI, SQL Server
Project Management	Agile, Jira & Jira Align, Miro
Data Analytics	MATLAB, Python, R, Powerquery
Programming	AWS, MS Azure, M365, C++, HTML, Arduino, Raspberry Pi

Education

Master of Science in Finance

University of Technology Sydney (UTS)

- Relevant course work: Financial Management, Financial Modelling and Analysis, Accounting, Economics, Investment Management, Corporate Finance
- GPA: 6.4/7

Bachelor of Technology

Heritage Institute of Technology Kolkata

- Major in Applied Electronics and Instrumentation Engineering
- Relevant Coursework – Linear Algebra, Digital Image Processing, Mechatronics.
- GPA: 8.22/10

Work Experience

Quantitative Trader, Independent

June 2024 - Present

- Designed and back-tested derivatives trading strategies across equity and FX markets using **Python (pandas, numpy)** and **Factset data**, improving Sharpe ratio by **18%**.
- Implemented **VaR and PnL attribution models** to monitor portfolio exposure and daily position risk.
- Analysed transaction and market-microstructure data to identify patterns in liquidity, volatility and market response to information, providing insights relevant to regulatory and market-design questions
- Developed Python scripts and AI agents to **automate reconciliation** and **flag breaks** across trade, margin, and cash settlement data.

Founder, Oasis

December 2024 - Present

- Founder and CEO for Oasis, a hyperlocal delivery platform for groceries, alcohol and supplies. Part of the startmate student accelerator.
- Developed the MVP, product – channel fit and route optimisation algorithm along with the UI/UX interface for our app.
- Worked across product, tech and customer discovery, turning qualitative insights into product and growth decisions and creating materials to communicate the strategy to accelerator mentors and stakeholders.

Wealth Management Intern, Atlassio Capital Partners

June 2025-Present

- Supported relationship managers in preparing client portfolios and scheduling high-level meetings with HNI's
- Managed internal communications and helped coordinate documentation for compliance.
- Liaised with multiple departments for reporting deadlines.

Research Assistant, UTS Business School

November 2023 – Present

- Assembled and Organized insurance and crime data over a decade across 29 Indian for analysis.

- Researched and leveraged prior programming knowledge to group and clean relevant data to understand opportunity costs related to insurance coverage.
- Collaborated on Canadian mining research in exploration costs and incentives effect on development. Created a database of 500 firms for the same.

Equity Research Analyst, Maqro Capital

March 2024-April 2024

- Collaborated alongside the research team and CEO to generate investment ideas for clients. Back-tested strategies and models while identifying potential new opportunities. Published 42 coverage and research for ASX stocks.
- Monitored economic indicators, market sentiments and collaborated with peers in delivering portfolio targets for over 15 mining clients.

Notetaker, UTS Accessibility Service, UTS

July 2023-October 2024

- Provided notes from classes, tutorials, and group discussions to students with accessibility issues in a timely manner (24 hours).
- Cooperated in conjunction with the student service unit at UTS to better support the academic journey by timely reports, reviewing feedback and developing writing and listening skills. Increased student participation by 10% as a result.

Residential Networker, Yura Mudang, UTS

June 2023 – July 2024

- Responsible for welfare of over 700 students at UTS Housing. Encouraged participation in events and drives for fellow residents applying communication and team building methods.
- Certified in First Aid and MHFA (Mental Health First aid)

Slideshows and Merchandise Assistant Luna Park Sydney

June 2023-November 2023

- Working in sales and merchandise increased profit by 2% parkwide and improved customer experience through spruiking, upselling and cross selling.
- Cross trained Guest Relations and Rides to support all roles when required and ensure customer satisfaction.

Intern, Internshala

September 2021 - December 2021

- Built project to predict housing and stock prices deploying ML models.
- The focus was on applying regression models over 25 features to predict the prices.

Projects

Heart Disease Detection using Deep Learning Model

- Built an ML model to predict heart diseases with 96% accuracy in the best case with random forest algorithms.
- Solved test cases using SVM, RBFN networks, employed multiple training models to analyze the data.

Mining Project Valuation for Rex Minerals (Hillside and Hog Ranch)

- Valued and did Capital budgeting for a multi-project mining company with over 1 billion dollar in pipeline revenue.
- Compiled and analyzed financial reports over the last decade across comparable companies in the sector.
- Exercised strong excel modelling techniques for efficient interpretation.

Financial Case Study for Ansell, Westpac, and Metcash

- Using FactSet and Excell developed Multiple Regression Model for firms and recommended whether to buy or sell.
- Performed Hypothesis testing, SES smoothing and other CLT applications to see how the firms perform and the significance levels of the metrics.

Stock Market Price prediction using python.

- Morningstar and FactSet's dataset were used to build both linear and discrete models to predict prices and volatility.
- Implemented RBFN and random walk models among few to check for most accurate model.

Chief Risk Officer

- CRO for a team of 8 in banking, implemented duration analysis, VaR and CDS to manage IRRBB, liquidity and capital risks.

CSL Analyst Report

- Lead a team of 5 over a semester in valuation of CSL through multiple methods including DCF and relative valuation. Ran sensitivity analysis on growth rates, cost of capital and FCFF changes and advised a sell decision on the stock

AI-Driven Derivatives Trading Platform

- Designed an end-to-end AI-powered platform for derivatives trading incorporating machine learning (LSTM, Gradient Boosting), reinforcement learning, and quantum computing (QAOA) to optimize pricing and hedging strategies.
- Developed a 3-phase implementation roadmap and financial model projecting \$4.8M+ in annual revenue streams.
- Benchmarked platform capabilities against Bloomberg Terminal and Robinhood, identifying unique value propositions in real-time analytics and retail accessibility.

Ethical Implementation of AI in Finance

- Conducted critical analysis of AI applications in insurtech, investment platforms, and financial data services, evaluating ethical challenges including algorithmic bias, data privacy, and market stability.
- Proposed governance frameworks integrating explainable AI and robust data protection measures.

Open Banking API Integration

- Developed workflows to retrieve and analyze real-time financial product data via CommBank's public APIs using Postman.
- Evaluated open banking's role in driving financial inclusion and assessed regulatory strategies to mitigate cybersecurity risks.

Achievements

- Multiple awards in Karate (Black belt), Athletics and Theatre
- CAIA LEVEL 1(Chartered Alternative Investment Analyst)
- Winner International English Olympiad
- Won IMO (International Math Olympiad) and scored 95.6 percentile in NGSE.
- National team (Karate), State team (Athletics)

CERTIFICATIONS

Financial Markets - Yale University (July 2023), Statistics - Stanford (March 2024), Business Analytics - Microsoft (September 2023), Excel Essentials - Microsoft (December 2023)

Volunteer Experience

Team Leader

May 2023 - June 2023

Vivid Sydney, Sydney,NSW

- Provided wayfinding and accessibility support to patrons across 5 different zones over 2 weeks.
- Operated and maintained light and sound installations for over 2 artists.
- Led a team of 20 volunteers and ensured smooth and safe operations.

Treasurer

July 2023 – Present

UTS Public Speaking Society

- Served as an executive for the society involves applying for 20 grants, 150 reimbursements, sponsorships, re-affiliations, and all other financial and operational management and applied financial skills in real life.
- Spearheaded collaborations and reaffiliations with peer clubs and secured funding and learned organizational

Extracurricular Activities

Member

- CAANZ, CPA, Business Society, Consulting Club, Ice Society, Hip-Hop Society, Indian Society, Gamer's Guild

Team

- UTS Volleyball, Investment Society, UTSWBFC

BCG Introduction to Strategy Consulting Job Simulation on Forage

December 2023

- Learned how to think creatively by challenging the assumptions that guide today's thinking.
- Used effective brainstorming strategies to generate ideas to help a fictional luxury clothing company increase sales revenue.

JPMorgan Chase Investment Banking Job Simulation on Forage

December 2023

- Identified an ideal M&A target for a client based on an assessment of their strategic and financial criteria.
- Constructed a DCF model to calculate the valuation of the M&A target and adjusted the model to account for a competitor bid and supply chain interruption.
- Created a 2-pager for the client containing a company profile and summary of the auction process.

Goldman Sachs Risk Job Simulation on Forage - May 2025

- Completed a job simulation involving risk assessment and management for Goldman Sachs' Risk team.
- Conducted individual credit risk analysis using quantified financial data, enhancing skills in personal finance evaluation.
- Developed and recommended risk mitigation strategies, demonstrating practical application of financial principles and market understanding.
